

Cyber Range Setup & Four Shapes Assignment

Period 6 • File naming format: PX_four_shapes_lastname

Cyber Range Setup

1. Start your **Cyber Range**.
2. Launch the **Kali Linux** machines.
3. Open the login page: [Cyber Range Login](#).
4. Use the **Period 6** ID and password from: [Period 6 Credentials \(PDF\)](#).

While the Cyber Range finishes loading, work on your **CodeHS** (Code High School) assignments.

Program Assignment

I will pass out the program in class.

File Name

Use this base name for all files: PX_four_shapes_lastname

Required Deliverables

Item	How to Create	Save As
Screenshot of your program	Use the Snipping Tool (or your OS screenshot tool).	PX_four_shapes_lastname.png
Python source code	Save your Python file from your editor/IDE.	PX_four_shapes_lastname.py
Text version of your code	Copy/paste your Python code into a plain text file.	PX_four_shapes_lastname.txt

Item	How to Create	Save As
Video of the program running	Record your screen while executing the program.	PX_four_shapes_lastname.mp4

Tip: On Windows, you can record with **Win** + **Alt** + **R** (Xbox Game Bar). On macOS, use **Shift** + **Cmd** + **5**.

Google Classroom Upload

Upload all four files:

- PX_four_shapes_lastname.png
- PX_four_shapes_lastname.py
- PX_four_shapes_lastname.txt
- PX_four_shapes_lastname.mp4

If any link doesn't open at school, notify the teacher so IT can review access.
